BENCHTOP NMR SPECTROMETERS

The NMReady-60 benchtop NMR spectrometers are 60 MHz, 1.4T all-in-one instruments. By locating the magnet, electronics and touch screen computer in one compact (11.8x11.0x19.2") and low weight (55 lbs) enclosure, the spectrometer can be easily sited directly at the point of need, whether that is on a benchtop, in a fumehood or directly inside a glovebox.

NMReady-60PRO Benchtop NMR Spectrometer

The NMReady-60PRO is a multi-nuclear spectrometer that allows the user to increase the scope of their qualitative or quantitative structural inquiries. They can design their own experiments or load/customize pre-existing 1D and homo- and hetero-nuclear 2D experiments.
