

## BSE / TSE Statement

---

### VWR\* NITRILE GLOVE

---

This document certifies that the above product meets the following criteria:

|                                   |                                |
|-----------------------------------|--------------------------------|
| <b>North American Catalog No:</b> | 40101-348                      |
| <b>Description:</b>               | VWR GLOVE NITRILE PF LRG PK100 |

The above product is not manufactured using any animal derived materials. However, please be aware that trace levels of animal-derived ingredients may potentially be present in some process chemicals, even when these process chemicals are not animal-derived. Manufacturer ensures that products with a potential to contain trace levels of animal-derived ingredients are not associated with a risk of Bovine Spongiform Encephalopathy (BSE) or Transmissible Spongiform Encephalopathy (TSE) by requiring that vendors comply with all National, Federal and European Guidelines regarding the safe usage of animal-derived materials.
